

## Chairman

### Sean Ramezani

I am an ambitious individual and have the principal responsibility of the effective running of the Board and ensuring it plays a full and constructive part in the developing and growing Moss Rose.

I intend to promote and uphold the highest standards of governance, integrity and setting clear expectations. My role is to enhance the ability of the board and executive management to work effectively together to secure the long term and successful future for Moss Rose.

I started my career working for one of the largest banks in the UK. I gained experience advising private clients on a number of complex financial matters and soon established myself as one of the Banks leading young financial advisers.

After several years working for a large cooperation, I decided to leave the corporate world to ply my trade for a smaller, independent financial advice practice. I continue to help a diverse range of clients across Wales and South West with all aspects of their financial planning and developed particular expertise in pension advice and investment planning to NHS doctors.

On a day-to-day basis, I advise busy professionals on how to make the most of their money. My area of expertise includes NHS Pension and retirement planning, tax mitigation, pension options and investing for the future.

Outside of the office, I am a car enthusiast, and enjoys spending time with family and good friends. I have an honours degree in Genetics and also enjoy learning about politics and current affairs.

We are at an exciting time in our journey and I hope to work effectively with other members of the executive team to form a long-lasting relationship with key partners and local authorities not only in Cardiff but beyond our immediate region. I hope to help shape our vision and to engage with our community as we move forward.

This is a great opportunity to have a life changing impact on young peoples lives and to assist in everyday challenges which they face. This will help them develop life skills to allow them to live as independently as possible and lead the life they choose.
