

Name:

Dr Jack Jarman Bsc (hons), PG Cert, D Clin Psyc (Clinical Director at Jarman Rehab Consulting Ltd and Founding Director at Moss-Rose Cottage)

Job Title:

I am a Highly Specialist Clinical Psychologist in Neuropsychology and currently work as the Lead Clinical Psychologist for Wye Valley NHS Trust's Acquired Brain injury and Stroke Rehabilitation services. This role involves developing and delivering clinical psychology rehabilitation services for brain injury survivors in both inpatient and community settings.

I am also the clinical director of Jarman Rehab Consulting Ltd and work as an Associate of HallidayQuinn Ltd. Both companies provide specialist assessment, treatment and rehabilitation services for brain injury survivors.

What skills you are looking forward to sharing with us at Moss-Rose Cottage?

I am looking forward to sharing my passion, creativity and clinical experience of brain injury rehabilitation to help support Moss-Rose to be as enabling and effective as possible.

Why did you agree to be a director at Moss-Rose Cottage?

I agreed to be a director at Moss-Rose because I believe that this is a truly inspirational project that will provide cutting-edge, effective, evidenced based rehabilitation opportunities for people who are regularly isolated and disconnected from their communities, following a brain injury.

What are you most pleased to hear will be going on at Moss-Rose Cottage?

I am most pleased to hear that Moss-Rose will provide the opportunity for people who have so many strengths, skills, knowledge and lived experiences to come together and build meaningful connections, relationships and share positive psychological experiences with one another.

What do you hope we will achieve at Moss-Rose Cottage in the long term?

I hope that Moss-Rose will become a center of wellbeing excellence and will act as a new model of how healthcare services can be effectively delivered for people who live with life-long conditions.
