June & July at Moss Rose Cottage.

**June was a blur of policy writing and Health & Safety conversations.
July was really just full of things to celebrate.**

The theme of *indebtedness* continues. So many people took turns in pushing the project closer to being able to fully open our doors. **Francesca Wright** continued helping us develop a system to Measure our Success, **Simon Ryan** from 'The Edge Systems' has begun creating our official logo, **Adam Worthington** (my mentor/guru) helped keep me focused when I felt overwhelmed and **Christine Parks** ensured that our business and building are risk assessed to the max and fit for purpose. Without her hard work and that of our 'Policy Gals' **Tanya McGregor** and **Renee Bolton**, we wouldn't have FINALLY secured our Insurance which has turned out to be the most complicated task that I have faced..!!

We had so much to celebrate too..

- From not being recognised at all by google, we are now ranked #1 in their searches.
- We welcomed our new director, Medical Negligence Solicitor **Jane Rogers**.
- Thanks to **Chrissy Parks** from Wates Construction, we are another step closer to starting our renovations.
- We have finished for the summer..!!

Then last but not least, we were successful in our bid for the ICF (Integrated Care Fund) who generously awarded us £10, 000. We will begin spending this money in September when we officially open our doors. Thank you **Glamorgan Voluntary Services**.

Best wishes all and thanks for your continued support.
